Currently offering: *Aventures en France*, a conversational French class based on the Lozanov Method. This course meets in small groups of 4-8 where they activate the conversational vocabulary they have listened to on cds provided with the text. This method allows students to learn to speak the French language more quickly than traditional methods. Classes available only in the evenings, or perhaps on the weekends, since I have a full-time administrative position at MTSU.

Costs:

Group class cost: \$250 for 10 classes (2 hours each), plus \$50 for the text and cds.
